Angad Bajaj

New Delhi, India | +91 9999189766 | angadbajaj301206@gmail.com
Linkedin | Github | Leetcode | Codeforces

Summary

Full-Stack & AI Engineer experienced in building **scalable web platforms**, **AI applications**, **RESTful APIs**, and **automated workflows**. Proficient in **Java, Python, TypeScript, and SQL**, with a strong foundation in **OOP**, **Data Structures & Algorithms**, and **software engineering principles**. Skilled in integrating **frontend, backend, and real-time AI services** to solve complex technical challenges and deliver reliable products.

Professional Experience

AI Agent Developer Intern August 2026 – Present
Gravity *Remote*
- Built 3 LLM workflow agents on **Activepieces** automating expense logging, personalized digests and release-note publishing, with **human approval gates** on all outbound actions.
- Engineered a **6-node LangGraph** resume-JD matching pipeline combining **deterministic scoring** with **LLM semantic matching** for reproducible, quote-validated results.
- Improved agent reliability through **deduplication logic**, **prompt-injection safeguards**, and **keyword-only fallback modes** for uninterrupted operation during model outages.

Technical Team Member – Hash Define 2024 – Present
College Technical Society *New Delhi, India*
- **Taught 30+ students** through technical sessions on Data Structures, Algorithms, and programming fundamentals.
- Organized and **executed technical events** including speaker sessions, workshops, and coding sessions.
- **Organized a Codeathon**, handling problem-setting, event coordination, and on-ground execution.

Projects

Higenbot – Multi-agent 2D Game Generation Platform | *GitHub*
- Built a multi-agent LangGraph pipeline orchestrating **4 specialized AI agents** to transform natural-language ideas into **playable TypeScript + HTML5 Canvas games** from a single prompt.
- Implemented an automated QA feedback loop that detects failures and routes them back for **up to 3 automatic retries**, **reducing manual debugging** during game generation.
- Developed a **conversational editing interface** that modifies generated game files through natural-language requests and validates changes before applying them.

Shay – AI Integrated Schema Designing Canvas | *GitHub*
- Built a React Flow schema-design canvas for interactive visual table management and relational mapping.
- Built an **AI assistant** that converts natural-language instructions into live schema drafts for side-by-side verification, **reducing manual schema design effort**.
- Implemented **800ms debounced auto-save** to **minimize redundant API calls** during active editing, alongside a multi-dialect SQL exporter supporting PostgreSQL, MySQL, and SQLite.

Pitch Perfect – Pitch Platform for Founders | *GitHub*
- Developed an **interactive pitch training platform** where founders practice against **5 AI investor personas** with distinct questioning styles.
- Integrated ElevenLabs WebRTC to achieve **sub-500ms voice-to-voice latency**, enabling natural conversations with **real-time interruptions** and investor-style questioning.
- Built an **AI-powered post-pitch analysis** system generating **1–10** scores across **4 metrics**, investor-fit assessments, and actionable coaching from conversation transcripts.

Technical Skills

Languages: Java, Python, C++, TypeScript, JavaScript, SQL, HTML/CSS
Web Frameworks & APIs: React.js, Node.js, Express.js, FastAPI, RESTful APIs, WebSockets
AI & Tooling: LangChain, LangGraph, Multi-Agent Workflows, System Integration
Databases & Cloud: PostgreSQL, MySQL, MongoDB, Supabase, Git

Education

Guru Gobind Singh Indraprastha University 2024 – 2028
Bachelor of Technology (B.Tech) in Computer Science Engineering
- **Coursework:** Data Structures & Algorithms, Computer Networks, Operating Systems, OOP, Compiler Design.

Indraprastha International School (CBSE) 2024
Class XII: 90.1% | Class X: 93.5%

Achievements

- Earned an official nomination for the **Smart India Hackathon National phase.**
- Solved **300+ DSA problems** across platforms.
- Max rating **1032 on Codeforces** and **1453 on LeetCode**.
